Research into street works qualifications

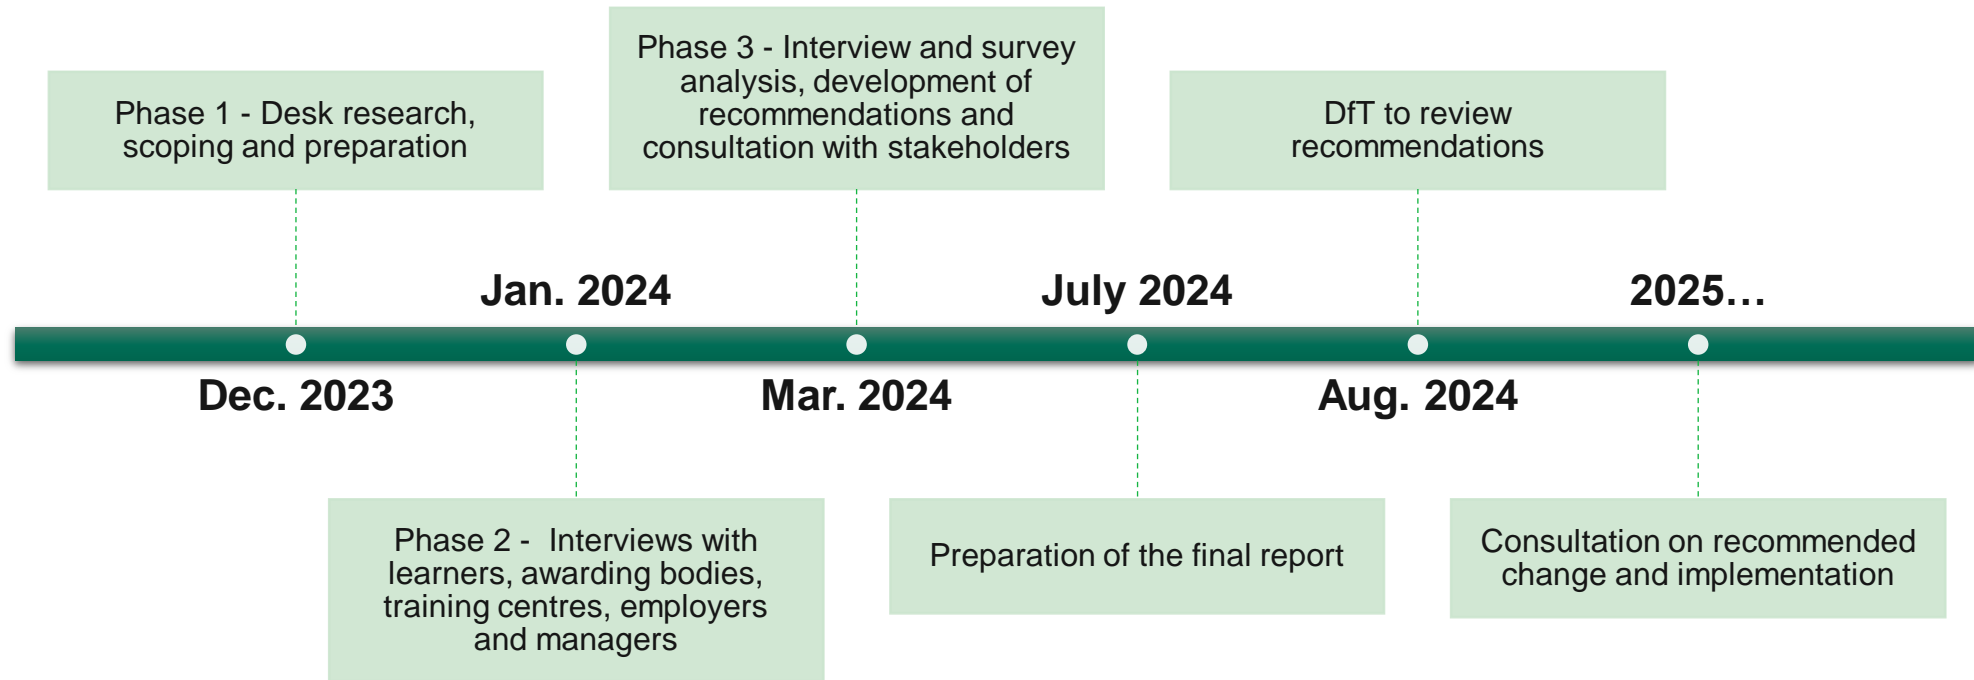

Research aims

- First major review since 2016
- Commissioned researchers to understand if qualifications regime needs to be reformed
- Review will cover
 - AO approval/accreditation
 - Validity and accuracy of assessment/overall standard
 - Street works cards/proof of qualification
 - Consistency of training levels
 - Recognition of qualifications issued in other countries
 - Continuous improvement and attracting new entrants

Out of scope: Administrative staff training requirements

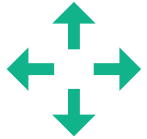

Project timeline

Emerging themes to-date

Broadly positive views on street works assessments

Aspects that could be addressed were flagged

Mixed approach to street works training

Technology tentatively welcomed

Some suggestions to improve regime offered

How can I get involved?

Visit our hub for more info: www.pyetait.com/streetworks

Final chance to share your views: closes next Friday 26 April.

We're especially keen to hear from street works operatives....

Please forward this research onto your teams....

Operatives will receive a £25 Amazon voucher thanking for their time
