

TERTIARIES 'R' US

A 'Lightning' presentation on how we got them and what we've used them for

GIS & Data team project

- ▶ Over 40K legacy residentials missing tertiary class

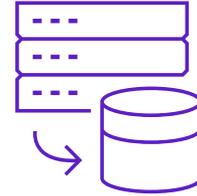

- ▶ Used detached class data from GeoPlace

- ▶ Team project to identify remainder using GIS analysis

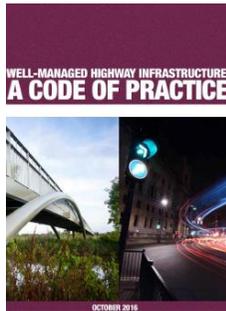

GIS & Data team project

- ▶ GIS analyst used existing data sets
- ▶ AM team's random sample check showed > 90% accuracy
- ▶ Technical staff loaded data into LLPG

Highways Maintenance project

- ▶ Request from Highways for information making use of tertiaries

- ▶ City Council adopting Code of Practice for 'Well-managed highway infrastructure'

- ▶ Review of all streets hierarchies being undertaken

Highways Maintenance project

- ▶ More confidence with property counts
- ▶ Counts by street for postal addresses
- ▶ Split into commercial, residential and other uses

NOTTINGHAM CITY COUNCIL ADDRESS MANAGEMENT

- ▶ Flats counted separately

Transport - Charging points project

- ▶ Identify council car parks to install electric vehicle charge points
- ▶ Neighbourhoods with little off-street parking
- ▶ No option to install charge points at home

- ▶ Project to be repeated using LLPG class data

Other projects

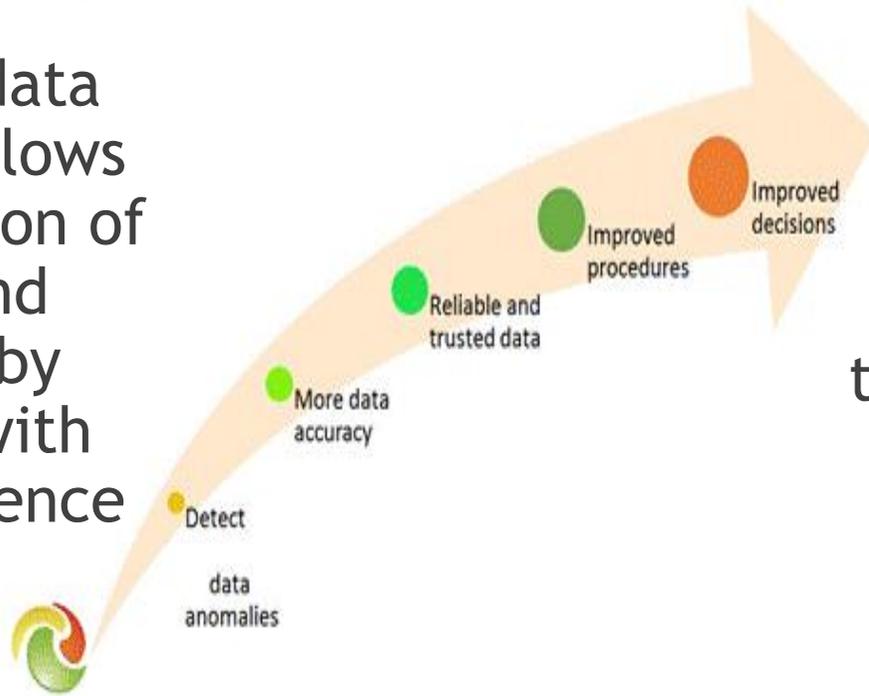

- ▶ Energy consumption - by property type

- ▶ Housing Strategy - balance of property types

Summary and Contact details

- ▶ Class data now allows provision of lists and totals by class with confidence

- ▶ Use of team skills of LLPG, GIS and technical staff
