

# How to avoid Letting off Steam!

# What's this presentation about?

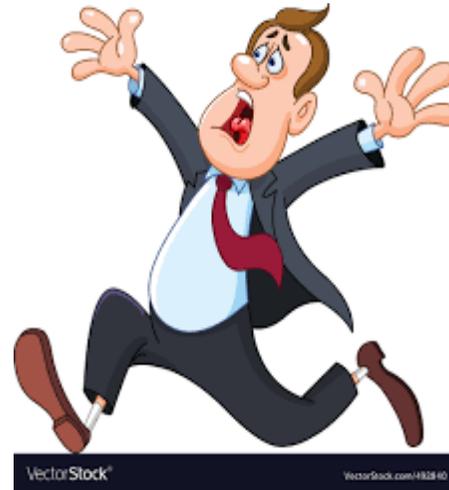

## ► What did the Romans do for us?

## ► How NCC uses the LSG to tell utility companies about the location of its District Heating System network

## The issues/problems

- ▶ What is a DHS, why worry about it?
- ▶ My response
- ▶ **PANIC** followed by talking to those who know about these things

# Consultation

▶ Who and why

▶ How

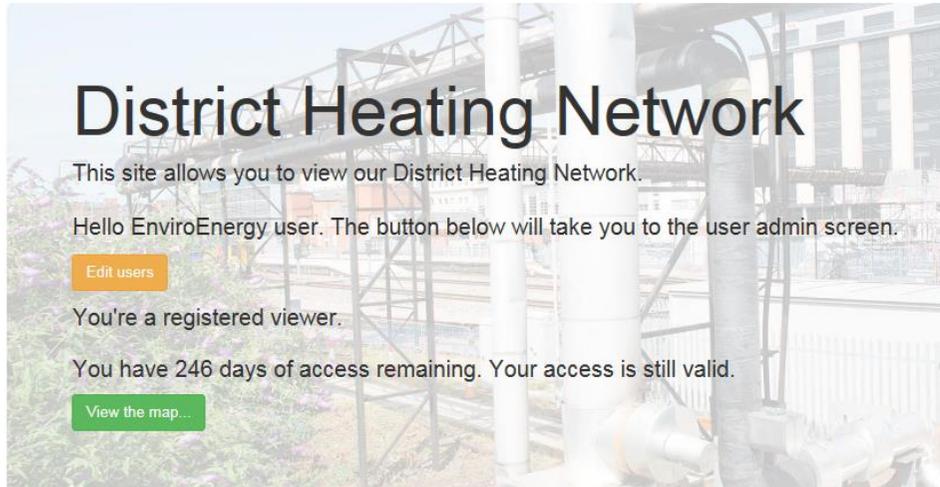

▶ Results

www.shutterstock.com • 374172868

# Issues considered

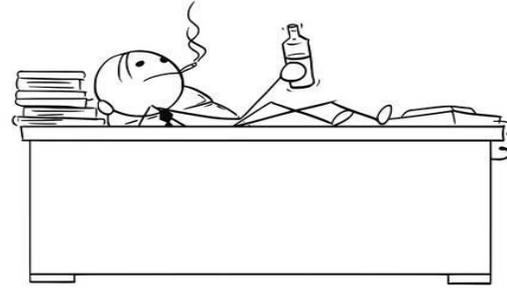

- ▶ The process operating at the time
- ▶ Data ownership

- ▶ What was available as a solution and did it meet needs

## Potential Solutions

- ▶ Leave things as they were
- ▶ Send everyone a copy of the data
- ▶ Use an App and send everyone a link
- ▶ Use an App and the LSG to signpost

## What is now in place

- ▶ When utilities apply for a permit we tell them if street affected by DHS
- ▶ They can check the App to see if their works are impacted
- ▶ We can give or get them the advice they need

# Summary and Contact details

- ▶ In conclusion:
- ▶ We identified a problem;
- ▶ We talked to all the stakeholders;
- ▶ Looked at various solutions; and
- ▶ Used Team IT capability to establish an efficient, effective answer
