Vince Nwana – Managing Director Skewb Digital

25th April 2023

At the forefront of innovation, collaboration, digital excellence, customer experience and value for money

Outcome Based Focus

We have made a significant difference to our client's performance, resulting in greater service and value for money.

Our Impact

We want to develop long term sustainable partnerships with our clients – impacting the Utility sector, positively effect communities and consumer habits and drive a more sustainable use of resources.

Collaboration

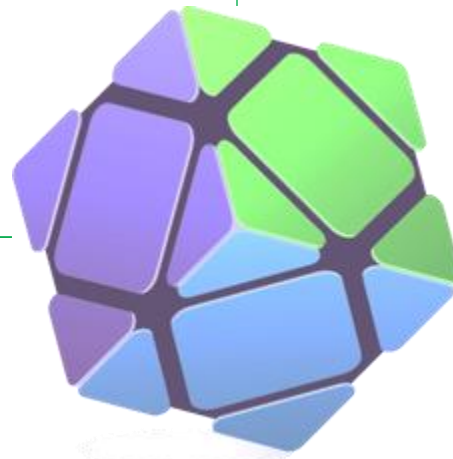

We are passionate about working collaboratively with you and we are hands on in our approach. We will integrate into your team, allowing you to manage your day job, whilst we deliver the outcomes needed.

Industry Experts

We are a team of industry experts, so we understand your challenges, enabling us to develop and implement practical solutions to deliver what you need.

Key Challenges

We seek to address the key challenges faced by the Utilities sector: How do we achieve our committed targets? How do we operate efficiently and reduce costs? How do we improved Customer Experience? How do we manage and mitigate regulatory risks?

A methodology and product suite to drive sustainable business outcomes for Street Works operations.

Direct links to DfT street manager
