

Government  
Digital Service

Department for  
Science, Innovation  
& Technology

**Sarah Hodgetts**

Director, National Data Library & Geospatial  
Government Digital Service

# New Structures

# New GDS has brought together:

Government  
Digital Service

Central Digital  
& Data Office

Geospatial  
Commission

i.AI

Government  
Digital Service

Responsible  
Technology  
Adoption Unit

# Ministers have agreed five main outcomes for digital government

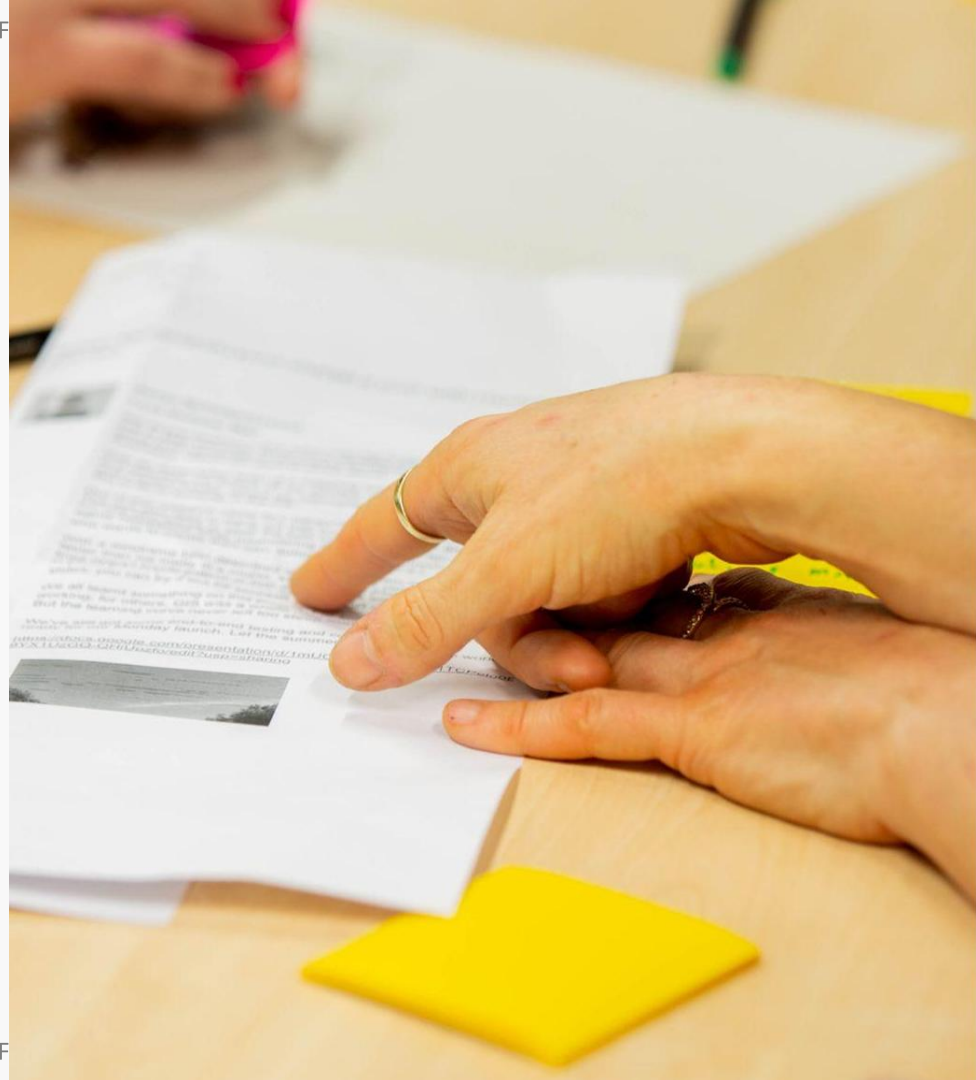

1. Easier lives
2. Faster growth
3. Firmer foundations
4. Smarter organisations
5. Higher productivity  
and efficiency

# We have a **six point plan** for digital reform

1. Join up public sector services
2. Harness the power of AI for the public good
- 3. Strengthen and extend digital and data public infrastructure**
4. Fund for outcomes, procure for growth and innovation
5. Invest in talent
6. Commit to transparency, drive accountability

# A Moment for Local Government

- Local government collaboration sprint
- Key challenges for local government
- Shaping a new GDS offer

# UPRN Adoption Sprint (April - June)

Steering group, co-ordinated by GDS, to agree:

- Quick wins and long-term steps
- How the digital centre can work better across the UPRN ecosystem to boost adoption

# Thank you
